

COMBINE INSPECTIONS

Plan for success and invest in your equipment with a GreenMark Equipment Combine Service Inspection. Our experienced technicians use an extensive checklist to perform a complete analysis of your equipment. Our program will identify any adjustments, repairs and updates now so that you can avoid costly downtime in your peak season.

\$699
Walker Combines
(\$1,200 Value)

\$899
Rotor Combines
(\$1,650 Value)

Our 200+ point inspection Includes:

- Check fluid levels of engine, transmission, final drives, hydraulics and all gear boxes and chain cases.
- Inspect rasp bars or threshing elements and concaves.
- Check for bearings that may soon fail.
- Inspect and adjust chain and belt tensions.
- Check auger and conveyor chain wear.
- Lubricate entire machine.
- Inspect all safety equipment and guards.
- And much more!

Don't Forget Your Header Inspections!

Save \$100 when you bring a header with your combine
