OUR SERVICE GUARANTEE:

At GreenMark Equipment, we believe so strongly in the benefits of our Tractor Inspection Program that we will GUARANTEE UPTIME for the first 100 hours of operation, or until June 1st, whichever comes first. When you agree to complete the recommended repairs on your tractor that is 15 years old or newer with less than 5000 hours, we'll stand behind them. If you are down more than 24 hours as a result of a failure and you agreed to the recommended repairs, GreenMark Equipment will provide a rental tractor at half of our normal rate including hauling with no minimum charge.
