

INTEGRATED SOLUTIONS

SF7000

- Accuracy Levels are: SF1, SF-RTK, RTK
- You cannot mix SF-RTK and RTK in a fleet.
 - Your entire fleet must be SF7000 RTK if you still have SF6000's using RTK.
- Completely replaceable through Parts, rather than sending it out for Reman.

"R" MODEM- Formally 4G MTG

- There are no differences between the "R" Modem and the 4G MTG.

Work Planner

- By using Work Planner, operators save on average 3-5 minutes every time they pull into a field.
- Operator can make any changes needed.

Land

- Data cleanup on the Operations Center is extremely important and easier now than ever.
 - Data Cleanup Tab under Setup – Land

Expert Connect

- GreenMark Expert Connect – Integrated Solutions
 - 269-397-8974
 - Subscriptions, renewal, and data issues
